

Feature:

1. Powered by AC110V-220V
2. Can charge 24 receiving units at the same time
3. Equipped with telescopic pull rod and pulley for easy movement
4. With charging protection and indication function

Specification:

Power supply	AC110V-220V
Power	66W
Number of charging digits	24
Maximum charging current per unit	220mA
Charging time	about 2-2.5 hours
Status indicator	Red light on - charging Green light - charging completed
Working temperature	0°C-40°C
Dimensions	630×370×290mm
Weight	10.5kg (excluding battery)
