FionTu

▶ Feature:

1. Built-in speaker unit

2. It is designed to be embedded in the surface, like a conference table, with only the control elements visible

3. It features high-quality built-in speakers for clear and reliable audio reproduction

4. Product Color: White

5. Exterior dimension: 257mm * 203 mm (DxH)

6. Opening size: 224mm (± 2mm)

7. The unit is designed to save space and discretion, with a sleek aluminum housing

8. Rated power: 65W

9. Maximum power: 100W

10. It utilizes standard CAT5e and RJ45 connectors for easy network connectivity and integration with other conferencing system components

11. The low-profile design and touch-sensitive controls make it easy to use and interact with

12. Frequency Response: 52-20 KHz

13. Sensitivity: 91dB (1M/1W)

14. It incorporates advanced DSP (Digital Signal Processing) technology to optimize audio quality

15. Applications: Suitable for a variety of applications including conference rooms, meeting spaces and other environments where high quality audio is required

16. Woofer: 6.5 inch

17. Tweeter: 1 inch

18. Input impedance: 8Ω

19. Hole depth: 215 mm

20.Net weight: 4.5Kg
