

Feature:

1. Support Mixer256X256 network audio and mix it
2. Support FT-Designer software operation platform and unified debugging
3. Support MBP-100 product full audio processor algorithm module
4. Four Gigabit Ethernet interfaces can realize line redundancy and dual backup function
5. Support F-LAN protocol
6. The whole series supports dual power mode and power dual backup mode
7. Support 40-channel AEC (acoustic echo cancellation) processor
8. Support UCI interface
9. Support RS232.RS485, 4-channel GPIO and other external access control devices
10. Support USB devices
11. Standard 2U chassis design
