

Feature:

1. Built-in 3-way design.
2. 70° (horizontal) x 60° (vertical).
3. 3-way single driver 4 units.
4. Two angle designs to meet different application scenarios.
5. Ultra-short path horn design achieves better directivity control and reduces frequency interference between multiple speakers.
6. The detachable mid-high frequency module is also a small full-range speaker.

Specification:

Frequency response range (-10dB)	40Hz~18kHz
Maximum sound pressure level SPL	131dB SPL peak
Coverage angle	horizontal (H) 70°, vertical (V) 60°
Unit structure	1x10 paper cone bass, 2 x 5" paper cone midrange, 1 x 44mm compression tweeter
Nominal impedance	8Ω
Power (AES)	300W
Box	Baltic birch plywood
Surface paint	polyurea paint
Dimensions (WxHxD)	500x480x330mm
Weight	22.6kg/49.8lbs
