

### ► Product Features

1. 2.4-inch TFT color LCD display, which can display channel, power, representative identity, address ID number, speech timer, etc
2. The unit uses 3600mAH lithium-ion battery, ultra-low power consumption, can work continuously for 8 hours, and the standby time can reach 12 hours
3. Long press the speech button to enter the unit settings, and you can modify the unit's channel, address ID number and other settings
4. Humanized function, high-definition voice restoration, unique battery life power supply, and no interference
5. The microphone stem has an indicator light (no light when not speaking, and red light when speaking., and a speech button (no light when not speaking, and red light when speaking)
6. Built-in Type-C charging interface

### ► Specifications

Carrier frequency band	UHF640MHz-690MHz	Maximum deviation	±45KHz
Harmonic radiation	<-65dBm	Bandwidth	50MHz
Battery used	3600mAH lithium-ion battery	Current consumption	<200mA
Microphone rod size	360mm long, microphone head diameter 26mm		
Oscillation mode	PLL phase-locked frequency synthesis		
Base size	100mm wide*134mm deep*57mm high		
Microphone core	14mm capacitive microphone core, cardioid directivity
