

### Feature:

1. Double-sided leather, simple and business, waterproof and non-slip, comfortable touch
2. Smart chip, safe charging
3. Charge immediately after release, efficient and convenient, let the microphone get rid of the constraints of the wire
4. Support 15W wireless charging, fast energy recovery
5. With temperature protection, overcurrent protection, short circuit protection, magnetic field protection, voltage protection, charging protection and other safety protection functions
6. Exclusive positioning point, fit the microphone base foot pad to prevent displacement

### Specification:

Power consumption	15W
Charging interface	Type-C
Input	9V/2A, 5V/3A
Output	9V/1.67A, 5V/2A
Charging frequency	110-205KHz
Accessories	1.5m Type-C data cable
Color	dark gray
Main material	frosted leather
Weight	100g
Dimensions (length * width * height mm)	200*150*5
