

## Feature:

1. All aluminum CNC machining, beautiful overall appearance, sturdy and durable
2. Flip-top socket, suitable for office scenes
3. Equipped with power overload protection, safe and reliable
4. Support wireless charging, high-efficiency conversion
5. Rich interface modules, products can be customized according to your needs, convenient and easy to use
6. Color customization, free matching, panel can be customized brushed black, brushed silver

## Specification:

Wireless charging	Support Qi wireless charging
Opening method	manual flip
Interface configuration	2 universal power supplies, 1 network, 1 USB
Installation method	desktop embedded installation
Material	aluminum alloy
Color	brushed black, optional brushed silver
Product size	350x104x55mm
Opening size	342x72mm
