

Feature:

1. Made of 5mm aluminum CNC fine processing, seamless, beautiful overall, sturdy and durable
2. Electric flip opening, with anti-pinching and wire clamping functions, equipped with power overload protection, safe and reliable
3. Support wireless charging, high-efficiency conversion
4. Rich interface modules, products can be customized according to your needs, convenient and easy to use
5. Color customization, free matching, panel can be customized brushed black, brushed silver

Specification:

Wireless charging	Support Qi wireless charging (with 1.8m power supply and adapter)
Opening method	electric flip
Interface configuration	2 universal power supplies, 1 set of USB charging, 1 network, 1 telephone
Voltage	AC110V-220V 50/60Hz
Weight	2.1Kg
Installation method	desktop embedded installation
Material	aluminum alloy
Color	brushed black, optional brushed silver
