

Feature:

1. The shell is made of aluminum alloy, and the surface is sprayed with beige paint, which looks stylish
2. The bass unit is made of PET diaphragm design, 100mmY30 external magnetic design, and the bass diaphragm is made of polypropylene material to make the bass stronger
3. The tweeter is designed with square horn, and the tweeter diaphragm is made of natural silk membrane. High-strength plastic horn makes the sound clear, round and transparent, clear and bright
4. The shell is made of all-aluminum material, sprayed with frosted beige, safe and reliable, rust-free, durable and non-fading, and the box has low resonance sound
5. The grille is made of 1060 pure aluminum, hardened and anti-oxidation treated, not easy to deform and never rust
6. The front panel is 10mmPE wood Plastic board, soaked in water, does not swell, strong strength effectively avoids front board resonance, breakage and aging
7. High-quality transformer, E-type wire turn audio transformer, ensures audio output fidelity, sufficient power, high efficiency, efficiency can reach 90%
8. Two-level frequency division design, divides audio signal into low, medium and high frequencies, and sends them to corresponding audio units respectively, making the sound layered

Specification:

| | |
|----------------------|----------|
| Waterproof grade | IP65 |
| Speaker unit | 8×2, 4×1 |
| Rated power | 80W |
| Optional power | 40W/80W |
| Input voltage | 70V/100V |
| Sensitivity (1m, 1W) | 92dB |
| Frequency response | 80-18kHz |
