

### Feature:

1. Fully digital design, high fidelity, and excellent voice transmission performance
2. Built-in 2 x 20W high-quality digital amplifiers, compatible with external speakers, and low power consumption
3. Professional DSP audio processing chip, supporting 10-band parametric equalization, delivering high-fidelity CD-quality sound
4. Highly reliable design with a long lifespan, mean time between failures (MTBF) > 100,000 hours
5. Overvoltage, overheating, and short-circuit protections
6. Local wired audio input with volume control
7. Expandable Bluetooth functionality
8. Adjustable bass and treble
9. Master volume control
10. Supports no music signal (including local audio) Automatic standby mode for energy saving
