

Feature:

1. Outdoor waterproof active column speaker with aluminum alloy housing for superior waterproof performance
2. Fully digital design for high fidelity and high voice transmission performance
3. Built-in 30W high-quality digital amplifier with low power consumption
4. Equipped with a volume adjustment knob
5. Highly reliable design with a long lifespan, with a mean time between failures (MTBF) > 100,000 hours
6. Supports automatic standby mode for energy saving when no music signal (including local audio) is present
7. Features overvoltage, overheating, and short-circuit protection
8. The woofer features a waterproof paper disc with a fabric edge and a 70mm Y30 external magnet for powerful bass, clear vocals, and crisp, bright treble
9. PET diaphragm design and a natural silk tweeter diaphragm for a clear, rounded, and transparent sound , clear and bright
10. Aluminum housing: 1.6mm all-aluminum material with high-grade spray paint, safe, reliable, rust-resistant, durable, and fade-resistant. Low resonance noise and stylish appearance
11. Aluminum front grille: 1060 pure aluminum, hardened and anti-oxidation treated, durable and rust-resistant
12. Front panel: waterproof ABS plastic

Specification:

Waterproof rating	IP65
Speaker units	4×2, 2.5×1
Rated power	30W
Sensitivity (1m, 1W)	89dB
Frequency response	120-16kHz
Input voltage	AC220V 50Hz/60Hz
Operating temperature	-20°C to +60°C
