

► Feature:

1. Adjustable constant voltage and constant impedance
2. Outdoor directional waterproof speaker with a high-quality ABS housing and aluminum alloy metal mesh
3. High-quality cone speaker with treble and bass frequency separation, resulting in delicate and soft sound quality and high fidelity amplification of vocals and music
4. Attractive appearance and adjustable mounting height
5. Waterproof and moisture-resistant design, suitable for indoor and outdoor venues such as classrooms, conference rooms, hotels, supermarkets, residential communities, and villas

► Specification:

Input voltage	70V-100V
Sensitivity	92dB
Speakers	5 speakers + tweeter
Speaker dimensions	188*145*93mm
Bracket dimensions	100mm (steerable)
Weight	1.2kg
Material	ABS housing, aluminum alloy dust screen
Power	100V constant voltage: 20W/10W/6W/3W, 8 ohm constant impedance: 30W, adjustable in five levels
