

Feature:

1. Engineered plastic housing with robust physical properties, resistant to rust, oxidation, and corrosion
2. Long service life and waterproof housing for indoor and outdoor use
3. High sensitivity, clear, powerful, resonant, and powerful sound with long transmission distance. Includes mounting bracket for easy installation

Specification:

Rated Power	100W
Input Voltage	70V-100V
Sensitivity	98dB
Frequency Response	90-20kHz
Material	Aluminum + ABS
Dimensions	360*360*315mm
Weight	5.3kg
