

### Feature:

1. Metal housing with strong physical properties, resistant to rust, oxidation, and corrosion
2. Long service life and waterproof driver for indoor and outdoor use
3. High sensitivity, clear, strong, loud, and powerful sound, with long transmission distance. Includes mounting bracket for easy installation

### Specification:

Rated Power	50W
Input Voltage	70V-100V
Sensitivity	98dB
Frequency Response	90-16kHz
Material	Aluminum
Dimensions	300*360mm
Weight	3kg
