

Feature:

1. Metal housing with strong physical properties, resistant to rust, oxidation, and corrosion
2. Long service life and waterproof driver for indoor and outdoor use
3. High sensitivity, clear, strong, resonant, powerful sound, and long transmission distance. Includes mounting bracket for easy installation

Specification:

Rated Power	50W
Input Resistance	8Ω
Sensitivity	98dB
Frequency Response	90-16kHz
Material	Aluminum
Dimensions	320*300mm
Weight	2.6kg
