

### Feature:

1. Adopting cutting-edge speaker design concepts, with masterfully crafted, standard styling, inspired by international design concepts
2. Utilizing a two-way circuit design with adjustable constant voltage and constant impedance
3. Made of ABS injection molded monolithic molding, waterproof and moisture-resistant
4. Utilizing high-fidelity speaker drivers with silk dome tweeters, the drivers utilize high-strength PP cones, and voice coils made of heat-resistant fiberglass. Waterproof design, suitable for both indoor and outdoor use
5. Suitable for conference rooms, classrooms, outdoor plazas, and other venues
