

Feature:

1. Curved contour design for a stylish and elegant appearance
2. Utilizing a bass-and-treble splitter design, the bass-and-treble bass port ensures exceptional bass and powerful sound
3. The housing is made of UV-resistant ABS material for safety and reliability. The thickened housing reduces resonance, is durable and resists fading, and is also resistant to oxidation
4. The woofer is a PP+rubber-rimmed woofer with an 80mm Y35 external magnet and a polypropylene diaphragm for stronger bass
5. The tweeter is constructed with a PET diaphragm and a natural silk diaphragm. The high-strength plastic horn provides clear, rounded, and transparent sound. Clear and bright
6. Grille made of 1060 pure aluminum, hardened and anti-oxidation treated, resists deformation and rust
7. Mounting bracket with adjustable angle, supports both vertical and tilted mounting
8. E-type wire-turn audio transformer ensures audio output fidelity, high power, and high efficiency, reaching up to 90%

Specification:

Speaker unit	1×1, 4×1
Rated power	20W
Power options	10W/20W
Input voltage	100V
Sensitivity (1m, 1W)	90±2dB
Frequency response	100-20kHz
