

### Feature:

1. Curved contour design for a stylish and elegant appearance
2. Utilizing a bass-and-treble splitter design, the bass-and-treble bass port ensures exceptional bass and powerful sound
3. The housing is made of UV-resistant ABS material for safety and reliability. The thickened housing reduces resonance, making it durable, fade-resistant, and resistant to oxidation
4. The woofer is a PP+rubber-rimmed woofer with an 80mm Y35 external magnet and a polypropylene diaphragm for stronger bass
5. The tweeter is constructed of a PET diaphragm and a natural silk diaphragm. The high-strength plastic horn ensures a clear, rounded, and bright sound
6. The grille is made of 1060 pure aluminum. Hardened and anti-oxidation treated, it resists deformation and rusts
7. Adjustable mounting bracket allows for vertical and tilted mounting
8. E-type wire-turn audio transformer ensures audio output fidelity, high power, and high efficiency, reaching up to 90%

### Specification:

Speaker Unit	1×1, 5×1
Rated Power	30W
Power Options	15W/30W
Input Voltage	100V
Sensitivity (1m, 1W)	90±2dB
Frequency Response	80-20kHz
Dimensions	280*194*185mm
Weight	3.2KG
