

Feature:

1. Curved contour design for a stylish and elegant appearance
2. Utilizing a bass-and-treble splitter design, the bass-and-treble bass port ensures exceptional bass and powerful sound
3. The housing is made of UV-resistant ABS material for safety and reliability. The thickened housing reduces resonance, is durable and fade-resistant, and is resistant to oxidation
4. The woofer is a PP+rubber-rimmed woofer with an 80mm Y35 external magnet and a polypropylene diaphragm for stronger bass
5. The tweeter is constructed with a PET diaphragm and a natural silk diaphragm. The high-strength plastic horn provides a clear, rounded, and bright sound
6. The grille is made of 1060 pure aluminum, hardened and treated for oxidation resistance, making it durable and rust-resistant
7. The mounting bracket is adjustable and can be mounted vertically or tilted
8. The E-type pure copper wire-turn audio transformer ensures high audio output fidelity, sufficient power, and high efficiency, reaching up to 90%

Specification:

Speaker unit	1×1, 6.5×1
Rated power	40W
Power options	5W/10W/20W/40W/8 ohms
Input voltage	100V
Sensitivity (1m, 1W)	91±2dB
Frequency response	65-20kHz
