

Feature:

1. Outdoor design, waterproof driver, suitable for both indoor and outdoor use
2. Compact and elegant appearance, suitable for various decorative spaces
3. Woofers made of PP with rubber rims, 60mm Y30 external magnet design, and polypropylene diaphragm for stronger bass
4. PET diaphragm design, tweeter diaphragm made of natural silk. High-strength plastic bracket ensures clear, rounded, transparent, and bright sound
5. Aluminum housing, all-aluminum with a matte off-white finish, safe, reliable, rust-resistant, durable, and fade-resistant, with minimal resonance
6. Aluminum High-quality front grille, made of 1060 pure aluminum, hardened and treated for oxidation resistance, resists deformation and rust
7. E-type pure copper wire audio transformer ensures high audio fidelity
8. Multi-functional mounting bracket for easy installation
9. Integrated waterproof housing, IP66 waterproof

Specification:

Speaker units	3×2, 2×1
Rated power	30W
Power options	15W/30W
Input voltage	70V/100V
Sensitivity (1m, 1W)	87±3dB
Frequency response	140-20kHz
