

### Feature:

1. Outdoor design, waterproof driver, suitable for outdoor use
2. Woofers utilize waterproof paper discs with cloth edging and a 70mm Y30 external magnet design, delivering powerful bass, clear vocals, and crisp, bright treble
3. PET diaphragm design, with a natural silk tweeter diaphragm, ensures a clear, rounded, and bright sound
4. Aluminum housing, constructed from 1.6mm aluminum with a high-grade spray-painted finish, is safe, reliable, rust-resistant, durable, and fade-resistant. The cabinet offers minimal resonance and a stylish appearance
5. Aluminum front grille, constructed from 1060 pure aluminum. Hardened and anti-oxidation treated to prevent deformation and rust
6. Front panel made of waterproof ABS plastic
7. E-type audio transformer ensures audio output fidelity, high power, and high efficiency, reaching up to 90%

### Specification:

Waterproof rating	IP65
Speaker units	4×1, 2.5×1
Rated power	10W
Power options	5W/10W
Input voltage	70V/100V
Sensitivity (1m, 1W)	87dB
Frequency response	120-16kHz
