

Feature:

1. Outdoor design, waterproof driver, suitable for outdoor use
2. PP + rubber-rimmed woofer, 80mm Y30 external magnet design, and polypropylene diaphragm for stronger bass
3. Horn design, tweeter diaphragm using natural silk membrane. High-strength plastic horn, resulting in clear, rounded, and bright sound
4. Aluminum housing, 3mm alloy aluminum plate, rust-resistant and strong, effectively preventing front panel resonance, breakage, and aging, with a stylish appearance
5. Aluminum front grille, made of 1060 pure aluminum, hardened Chemical and anti-oxidation treatment ensures deformation and rust resistance
6. Front panel made of PE wood-plastic material
7. E-type wire-turn audio transformer ensures audio output fidelity, sufficient power, and high efficiency, reaching up to 90%

Specification:

Waterproof rating	IP65
Speaker units	3×1, 5×4
Rated power	120W
Power options	15W/30W
Input voltage	60V/120V
Sensitivity (1m, 1W)	93±2dB
Frequency response	90-18kHz
