▶ Feature:

1. Professional rack-mount industrial control chassis design, featuring an integrated iron and aluminum alloy panel and electroplated steel spray-coated chassis structure, offering superior heat dissipation, interference resistance, dust resistance, and impact resistance

2. High-grade 7U brushed black aluminum alloy panel with chamfered edges and a matte sandblasted finish. A high-gloss finish surrounds the switch buttons and the alloy keyboard drawer, highlighting the exquisite detail and aesthetics

3. 17.3-inch HD touchscreen for easy-to-use touchscreen control

4. Integrated digital matrix industrial keyboard with embedded touchscreen and removable hidden keyboard and mouse touchpad

5. Built-in high-capacity SSD with vibration and drop resistance, fast read/write speeds, and low power consumption

6. After installing the broadcast system server software, it becomes the management and control center of the IP broadcast system, controlling various audio source signals, allocating broadcast zones, and configuring terminal information

7. The service software generates an electronic map to view the real-time status of each broadcast terminal, giving you complete control

8. Standard RJ45 network interface allows access anywhere with an Ethernet port, supporting cross-segment and cross-router connectivity

9. Strong compatibility, compatible with Windows/Linux systems

10. Shockproof and anti-interference, energy-efficient and silent, high and low temperature resistant, adaptable to various environments; supports 24/7 uninterrupted operation

11. Features 2 microphone inputs, 2 line inputs, each with independent volume control, and 1 line output

▶ Specification:

Processor	6th-generation Core i5, quad-core, 4-thread, 3.3-3.9GHz
Display	17.3-inch 4-wire resistive touchscreen, 1920*1080 resolution
Memory	DDR4, 16GB DIMM slot, expandable up to 32GB
Hard Drive	Onboard 512 GSSD solid-state drive, mSATA interface
Power supply	Mean Well fanless professional industrial power supply
Operating systems	Supports Windows/Vista/WinXP/Win2000/Linux/UINX
Hard drive expansion	1 SATA 2.0 connector, 1 SATA 3.0 connector
Video ports	1 VGA, 1 HDMI
Ethernet port	1, supports 10/100/1000 Mbps
Serial port	1 RS-232 2 serial ports
USB	2 x 3.0 USB, 4 x 2.0 USB

Input	1 x 3.5mm jack, 1 x 6.35mm jack, 4 x RACline ports
Power	3-position jack
Operating temperature	-10°C to 50°C
Storage temperature	-20°C to 60°C
Relative humidity	5% to 95%, non-condensing
Dimensions	485mm (D) x 300mm (W) x 310mm (H) (excluding feet)
Net weight	11.8kg
