

Feature:

1. The four-channel network audio capture terminal is based on the TCP/IP transmission protocol and can capture local audio sources in real time
2. High-grade aluminum alloy frosted panel and fully metalized chassis
3. Fully digital design, high fidelity and high voice transmission index
4. Web-based configuration for easy and convenient operation
5. 1.9-inch full-color display, showing IP address, time, and channel status
6. Button design allows for setting IP address, time, and screen off time
7. 4 line inputs and 2 microphone inputs on the rear panel
8. USB port and integrated MP3 player. Supports USB content capture and playback, and supports decoding of all-format audio streams
9. Includes one all-combination input
10. Supports network protocols such as TCP, UDP, IGMP, and ICMP

Specification:

Power Input	AC100-240V 50Hz/60Hz
Network	RJ45 (10/100M)
Audio Input Sensitivity	500mV
MIC Input Sensitivity	10mV
Frequency Response	80-16000Hz
Operating Temperature	-20°C to +70°C
Dimensions	482×300×44mm
Net Weight	2.8kg
