

► Specification:

Item	Specification
Input Voltage	AC 380V ±10%, three-phase five-wire system
Output Power	12 × 4kW, suitable for any load
Features	Dual protection with overload and short-circuit high-breaking air switch; independent voltage and current detection for each phase; A/B/C phase indicator lights
Dimensions (L×W×H)	515 × 483 × 133 mm
Net Weight	12 kg
