

Feature:

1. Stable floor-standing design with heavy-duty round alloy base and anti-slip pad, providing excellent stability and preventing accidental movement during use.
2. Made of high-quality thickened steel tube, featuring strong load-bearing capacity, durability, and long service life.
3. Adjustable height design with rotating locking knob, allowing flexible height adjustment according to different application requirements.
4. Adjustable boom arm design, supporting angle adjustment to achieve the optimal microphone positioning.
5. Universal microphone holder design, compatible with various handheld microphones and recording microphones.
6. Equipped with cable clip for convenient cable management, keeping microphone cables organized and tidy.
7. Compact and space-saving structure, suitable for different environments while maintaining stable performance.
8. Professional black finish with elegant appearance, suitable for stages, conference rooms, recording studios, and performance venues.
9. Simple installation and easy operation, providing convenient adjustment and quick setup for users.

Specification:

No.	Technical Parameter	Specification
1	Product Type	Floor Microphone Stand
2	Material	Thickened Steel Tube
3	Color	Black
4	Height Adjustment	Adjustable Height
5	Boom Arm	Adjustable Boom Arm with Locking Mechanism
6	Microphone Clip	Universal Microphone Holder
7	Base Type	Heavy-duty Round Alloy Base with Anti-slip Pad
8	Cable Management	Integrated Cable Clip
9	Features	Stable, Durable, Space-saving Design
10	Application	Handheld Microphone / Recording Microphone / Stage / Conference Use
11	Height	Adjustment from 90cm-200cm
