

Feature:

1. Compact tripod microphone stand design with aluminum alloy construction, providing excellent stability, durability, and portability.
2. Equipped with a U-shaped elastic microphone clip, suitable for handheld microphones with a diameter of 26-42mm.
3. Adjustable microphone angle design, allowing flexible positioning for different usage scenarios.
4. Foldable tripod base design, saving space and convenient for transportation and storage.
5. Made of high-quality aluminum alloy material, featuring lightweight structure and strong corrosion resistance.
6. Height adjustable from 230mm to 290mm, meeting different application requirements.
7. Non-slip tripod feet provide stable support and prevent movement during use.
8. Universal microphone holder design, compatible with various handheld microphones for stage, conference, recording, and speech applications.

Specification:

No.	Parameter	Specification
1	Product Name	Desktop Tripod Microphone Stand
2	Stand Type	Tripod Base Microphone Stand
3	Material	Aluminum Alloy
4	Color	Black
5	Microphone Clip Type	U-shaped Elastic Microphone Clip
6	Compatible Microphone Diameter	26-42mm
7	Height Adjustment Range	230mm - 290mm
8	Base Type	Foldable Tripod Base
9	Adjustment Function	Adjustable Microphone Angle
10	Stability	Non-slip Tripod Support
11	Application	Conference, Speech, Recording Studio, Stage Performance, Desktop Use
12	Features	Lightweight, Stable, Portable, Easy Installation
